An invitation has been received to go to Mt. Tabor and take pictures for the Nodaway County School Film next week.

THE LEE BARTON FARM IS QUARANTINED WITH RABIES

Barton Was Bitten by Rabid Dog and Horse, Cow and 2 Pigs Died From Bites.

Dr. J. L. Felix and Dr. C. P. Fryer yesterday visited the farm of Lee Barton, one and a half miles north of Gaynor, to investigate a case of rabies. The farm was quarantined by Dr. Felix, and Dr. Fryer prescribed treatment for Mr. Barton, who was bitten by the rabid dog.

The infected dog bit Mr. Barton about three weeks ago. It also bit a cow, a horse and two hogs, all of which died or were killed because of the infection. The collie dog was killed as soon as his infection was discovered but had already done his damage. Dr. Felix brought to Maryville with him a hydrophobia pig which has been placed under observation.

Dr. Fryer, the county physician, has issued a warning and a statement in regard to rabies in the county. He says it can be just as prevalent in cold weather as in warm. The first characteristics of the disease is noticeable in the dog by depressed spirits and loss of appetite. Then comes the stage of roving and a desire to bite everything. The final stage ends with paralysis and death from exhaustion.

Dr. Fryer says that there are entirely too many stray dogs in the county and that an infected dog could play havoc in any of the herds in the county. He urges that precaution be used in noticing the first symptoms of the disease. The period of incubation in humans is from twenty-one to forty days and the best treatment is to thoroughly disinfect the suspicious bite and to have the pasteur treatment, which can be given by any physician.

Neales Leave Sunday.

A. D. Neale of Chetopa, Kan., arrived in Maryville yesterday to join Mrs. Neale, who has been visiting at the home of Mr. and Mrs. F. G. Shoemaker for a week. Mr. and Mrs. Neale expect to leave tomorrow for their home.

HEADS 4 COUNTIES FOR CANCER DRIVE

DR. DOWELL HEADS NODAWAY, HOLT, ATCHISON AND WORTH

TO WIPE OUT CANCER

Statistics Given Which Show That 90,000 People Die Annually of Disease

Dr. H. S. Dowell has been appointed chairman for Nodaway, Holt, Atchison and Worth Counties for the American Society for the Control of Cancer. Dr. Dowell will have charge of the campaign of these counties in the Cancer Prevention Week which will be from November 12 to 18.

He said this morning that the purpose of this campaign was not to alarm the public but to "Educate the public to recognize the early symptoms of cancer."

A campaign of this nature is conducted each year. Last year Dr. Dowell was chairman for Nodaway County. This year his field has been increased four-fold.

This week is to be observed in every county in every state of the union and all over Canada.

Literature has been sent out to all of the churches clubs and organizations of the four counties. It will be placed before the public in such a manner to attract their attention to the disease which is more deadly than pneumonia, tuberculosis and typhoid fever.

The following information on cancer has been given by Dr. Dowell:

During the great war, the United States lost about 80,000 soldiers. During the same two years, 180,000 people died of cancer in this country. Cancer is now killing one out of every ten persons over forty years of age.

More people over forty years of age die of cancer than of pneumonia, tuberculosis, or typhoid fever. One woman in eight and one man in fourteen, over forty, die of cancer. This high rate shows than cancer is a menace to everyone. The menace of cancer lies in the fact that it does not cause pain in the first stages. Its victims, therefore, do not know they have cancer until the disease is well developed.

Some of the vital facts about cancer follow:

Many of these deaths are preventable since cancer is frequently cured if recognized and properly treated in early stages.

Cancer begins as a small local growth which can often be entirely removed by competent treatment or in certain external forms by using radium, ex-ray or other methods.

Cancer is not a constitutional or blood disease and there should be no thought of disgrace of hereditary taint about it.

Cancer is not a communicable disease. It is not possible to catch cancer from one who has it.

The beginning of cancer is usually painless. For this reason, its insidious onset is frequently overlooked and is too easily neglected. Other danger signals must be recognized and competent medical advice obtained at once.

Open war-fare by open discussions will mean the prevention of many needless deaths from cancer.

The common belief that cancer is a hopeless malady is partly due to the fact that cases of successful treatment are frequently concealed by the patient and his family, while cases of failure too often resulting from delay, are apt to become common knowledge.

Where cancer is concerned—He who hesitates is lost. Act now. See your doctor.

400 MEN ATTEND CHURCH MEETING

HELD HERE LAST NIGHT AT THE ARMORY

COUNTY MEN ORGANIZE

An Association of Christian Church Men of County Formed—Plans Made for Contest

Almost 400 men attended the meeting of the men of the First Christian Churches of Nodaway County which was held last night at the Armory building. At this meeting two important matters were transacted. The men of the different county churches were organized into an organization, which has not yet been named, with the following officers: president, R E. Snodgrass; vice-president, E. P. Taggart of Burlington Junction; secretary, G. W. Burnett of Ravenwood; treasurer, C. E. Knouse of Pickering. This organization was perfected and plans were made whereby it will likely take over the publishing of the "Radio" which is the official organ of the Men's Class at the Maryville church.

The other important matter was the forming of a contest between the East and the West half of Nodaway County. The boundary line will be Main Street in Maryville. This will divide the local church in two factions, one for the East and one for the West.

The county wide contest will be based on attendance, new members, on time, and staying for church. It will start Sunday November 12.

C. R. Harman of Pickering has been chosen temporary captain for the East side and Ray Strickler of Skidmore for the West side.

At the meeting last night a big feed was served which was followed by the main address by Judge W. K. James of St. Joseph.

LLOYD GEORGE RESUMES HIS POLITICAL CAMPAIGN

Is Pale From Illness but Has Fire In His Eyes

London, Nov. 4—Pale from illness and with the fire of battle in his eyes, former premier David Lloyd George, today resumed his political fight.

"The danger is eminent and real," declared Lloyd George. "The tranquility of the nation is in real danger," he continued. He pointed out that his Coalition government was responsible for the best European efforts for permanent peace and were the first to abolish conscription and to urge and to bring about reduction of armament in Europe.

The political rally was held in a theater with Lloyd George as the main speaker. He was haggard and his voice was weak and became weaker as he continued in his first speech in several days following his illness and inflamation of the throat.

Lloyd George entered the theatre accompanied by Lord Birkenhead and Austin Chamberlain was given a noisy ovation as they entered.

This was nomination day in British political campaign and increasing numbers are watching the political fight which is the most violent and spectacular in modern British politics.

MYSTERY ABOUT C. OF C. LUNCHEON FOR MONDAY

No Program Committee Has Been Appointed and President and Secretary Won't Talk

"Mum's, the word," seems to be the slogan of the president and secretary in regard to the program for the Chamber of Commerce luncheon for Monday at the Bainum Hotel. They are as talkative as "a clam" in regard to what will happen.

No program committee was appointed for this week, so the things in the air. But it is rumored that they have something up their sleeve to spring on the unsuspecting members Monday night. A good crowd is expected who will come for fear of missing somthing. Maybe a few women will come "out of curiosity."

GOOD CROWD AT LIBERTY SCHOOL

TO ATTEND COMMUNITY MEETING LAST NIGHT

PROGRAM BY CHILDREN

Given Before the Nodaway County Pictures—School Has Been Recently Improved

Agriculture in Nodaway County was shown by the Chamber of Commerce at Liberty school, Wilbur Williams, teacher, fifteen miles southwest of Maryville last night. The school was crowded with patrons of the district and although it began raining before the films were half shown no one seemed to think of hurrying away until after the program of the kiddies, which was a splendid one, full of pep, and the movies and the wonderful eats consisting of all varieties of pie, sandwiches, pickles and coffee had been enjoyed.

The school house was remodeled last year by being repainted, replastered, the outside covered with Kellastone and a new floor put in. Soon after the improvements were made the Farmers Union, one night at their regular meeting, decided that they needed a musical instrument. They made up a purse and bought a piano.

This school brought one of the most unique floats to Maryville, Nodaway County School Day, which was designed to represent a "Little Red Schoolhouse," and it was well constructed.

Someone at the meeting last night announced that the teacher had paid the expense of constructing this float out of his own pocket, which amounted to $35 and it was suggested by one of the patrons that a collection be taken up to reimburse Mr. Williams for this expense. In a very few minutes a collection was taken but no announcement was made as to the amount, however, every dollar spent by Mr. Williams will no doubt be refunded, because this community is one that co-operates and does things and backs everything that is worth while.

The Chamber of Commerce official car made the return trip, of fifteen miles in the rain, but it had lots of company, as political candidates and politicians were seen returning from all directions to Maryville until midnight.

The following program was given before the pictures:

Welcome—Louise Bird.

Never Break a Promise — Arthur Richey.

Duet—Gladys and Genn Shipps.

I Am Quite Small—Carl Rowlett.

When Pa Was a Boy—William Bird.

Dialogue—Adam and Eve and Apples.

Suppose—Vida Rowlett.

So Sweetly King—Rema Kenny.

A Boy's Lecture—Sam Campbell.

Giving Aunt Jane a Shock—Dialogue.

Reading—Genn Shipps.

YOUR DUTY TO VOTE.

It is the duty of every man and every woman who has been charged with the duty and obligation of voting to discharge that obligation to their state and country next Tuesday. The matter of voting is not only a privilege, but it is also a duty and responsibility every citizen in good standing owes to his state and his country. Let no one shirk this responsibility.

It has long been a complaint among high class citizens that the politicians in control of the irresponsible elements dominate the elections and often secure unsatisfactory officials. In doing this, the politicians are doing, so far as they do it honorably and legally, what they have a perfect right to do. They are taking advantage of their rights to vote and accepting their obligations as they see it. The real criticism is against those good citizens who are so engrossed with their personal cares and their dollar chasing that they do not spare a half hour once in two years to go to the polls and register their vote. The obligation of good government is upon them as heavily as it is upon the politician, and heavier in proportion as they have the intelligence and the conscience to analyze public needs correctly and to vote for the public interest.

The same objection was made against the granting of suffrage to women. It was charged that, while they are conscientious and believe in good and clean government, they could not be induced to take the obligation of voting seriously. The women now have the vote and it is up to them to disprove that charge and show themselves as loyal to a public charge as their most enthusiastic sponsors claimed for them.

There are fundamental problems involved in elections that transcend the importance of candidates as individuals. If a candidate stands for the things you believe ought to be done, and will carry out the policies you believe for the best interest of the whole people, it is your duty to vote for him, regardless of what you think of him as an individual. On the other hand, if you are convinced that a candidate is unfit for the place to which he aspires or will not encourage or carry out the policies to which you are committed, then personal friendship or admiration have but little claim upon you in the voting booth.

In this country it has been found wise to govern by parties and, as a rule, voters do well to stand with the party that most nearly meets their ideals. There, however, comes times when the individual voter is entitled to exercise his own judgment in accordance with the dictates of his conscience. The stability of the Government rests finally upon the conscientious voter, and while party regularity is desirable, he may well remember that he owes a higher duty to his state and his country than to any party, and, when his conscience demands, he need not flinch in choosing between citizenship and partisanship.

A feeling of allegiance to party should not lead any voter to remain away from the polls entirely. The Democrats of Missouri have a great deal at stake in this coming election. A United States Senator is to be elected, a supreme court, state superintendent of schools, congressmen, senators, and county officers. It would be a crime against both party and country to remain away from the polls entirely and refuse to vote at all. If there is any individual for whom a voter can not conscientiously cast his ballot, he should vote at least for those he does want to see elected. And this applies to both men and women in every walk and station of life.

If you are not satisfied with the present state administration, vote to send a democratic legislature to take the place of the present legislature. The candidates for supreme court are able and worthy men and the record of the state supreme court is one of which any citizen may be proud, and the candidate for superintendent of schools is a man well worthy of support.

What the voter does when he takes his ballot and his conscience in the booth together, is for him to determine but it is the duty of every citizen, man and women, to vote.

Forumettes

Some people never make good
Because they spend too much
Time trying to convince
Themselves luck is against them.

As the average girl expects to be the bride of a millionaire she does not think it is worth while to learn to cook.

Did you ever hear anything more sarcastic than a woman asking her husband for " a little money."

Nearly all Maryville stores have their holiday stock on the shelves and salesmen friends inform us that a bigger business than last year is expected. Looks like old man normalcy has slipped in and we didn't know it.

We heard a Maryville woman remark the other day the the new long skirt is a real protection on a rainy day. It is also a protection to the street gazer as his eyes probably will last longer.

Uncle Abner says the only reason he can find for some people getting married is that "misery loves company."

There is no reason for any red-haired girl worrying about the color of her hair. Just let her recall the number of women who made history who had titan locks. Look at Helen of Troy, Catherine of Russia and Elizabeth of England not to say anything of the number of American women who got on the first page by shooting their husbands or doing other consequential things.

Our neighbor caught her little son in the pantry after school the other evening. "What are you doing Tommy, stealing my cokkies?" she asked. "No Mama" he replied "I am just eating them."

While a few Maryville girls go in for high brow stuff a lot more go in for low neck fads.

Louise, the stenographer, says apparently some people do not know the country is dry as she saw an advertisment for a janitor in which it was stated a man who drinks need not apply.

One of our friends at a clothing store tells us he can tell when it is getting cold without going out to investigate. He tells it by the increased sales of heavy underwear.

Ernest Wray

REPUBLICAN CANDIDATE FOR

Representative

Is a man who has the ability and experience necessary to represent the people of this county in the next Legislature.

Ernest Wray is a dirt farmer, a native of this county, and a man who has ever been an active supporter of all progressive measures that have been presented for the benefit of agriculture.

Not only has he been active in farm organization work in this county, but he has carried this work into many other counties of the state. He was in Jefferson City for some time during the last session of the Legislature which enacted so many measures that were of such benefit to the farmers. This has given him an acquaintance with the members of the Legislature, which with his large acquaintance over the state will enable him to take an active part in the deliberations of that body.

Not only will he be in a position to look after the agricultural interests of our county, but will look after the interests of our State Teachers College, our roads, our schools, and the many other matters that make for the benefit of the county as well.

A vote for Ernest Wray is a vote for the best interests of the county.

To the Voters

In coming before you as the Republican candidate for the office of Recorder of Deeds I earnestly appeal to each voter for your support and vote on November 7.

Residing in Nodaway County for fifty years, I feel that I am no stranger to the people, and during those years I have given liberally of my time and means to the promotion of the many public enterprises which has been of great service to all the people, and I am glad that I was privileged to share my part with those Hustling Men that gave a summer's time of arduous labor in securing to this county our splendid State Teachers College and I am sure that you are proud to have it in your midst.

I make my appeal for your vote on my past record and on my qualifications and physical ability, to meet the arduous and exacting duties of one of the most important offices in the county.

I regard the Recorder's Office as a STRICTLY BUSINESS PROPOSITION and if you elect me your Recorder, business principles will be applied to the administration of the affairs of the office. So that the recording of your deeds, mortgages and other valuable documents and the issuing of marriage certificates shall receive my personal attention and supervision.

I cannot help feeling confident that the voters will on November 7, kindly remember me with their ballot at this time of my need of their assistance for the many helpful services I have rendered them in the past and I trust that it will be your pleasure to cast your ballot for me and in so doing assist me in getting back on my financial feet again, which I so much desire to get in a position to do.

Elect me your Recorder and you shall not during my term have occasion to regret your voting for DAN.

I wish to thank those that have assisted in my campaign and all the voters for their support and vote November 7.

If I am elected Recorder, I shall make some changes in conducting the affairs of the office, that will be of interest to the people. I hope to do most of the work of the office, and to so arrange for the service of a deputy, as such service is needed in caring for the rush periods, and the deputy to receive pay for time employed. By this arrangement, I hope to save the taxpayers a neat sum of money each year.

Silver Wedding Anniversary

"Conrad Yehle and Miss Mary Schumacher were married at the German Catholic church at 10 o'clock yesterday morning. Rev. Fr. Schumacher of Milwaukee, Wisconsin, uncle of the bride, performed the ceremony." "The wedding was an extremely well planned one. The bridal party entered the church at exactly 10 o'clock, the hour set for the ceremony. Prof. Kininmonth played a beautiful wedding march as they marched down the aisle, and the words were soon said that made them man and wife. After the ceremony they were driven to the home of the bride's father in North Maryville, where an elegant dinner was served to a large company of friends."

"Misses Nora Schumacher and Kate Yehle, sisters of the bride and groom, respectively, acted as bridesmaids. Both were beautifully dressed, the former in pink over white organdie, and the latter in yellow over white organdie. The bride was charmingly attired in white. The groom wore the conventional dress suit, as did the ushers, Gus Romasser, Charles Blake, LeGrand Gann and John Schumacher, the latter the bride's brother."

"Mr. and Mrs. Yehle will go to housekeeping at once in the residence on the corner of Fifth and Main, which has been already furnished for their reception."

"Mr. and Mrs. Yehle start in married life under most propitious circumstances and with the good wishes of everybody who knows them."

The above account of the wedding of Mr. and Mrs. Conrad Yehle which occurred November 3, 1897, is taken from the files of the former Nodaway Democrat. In observance of the silver wedding anniversary, Mr. Yehle's sisters, Misses Katherine and Theresa Yehle, entertained a number of guests last night at their home on South Prairie street. The favors at rook were won by Miss Marie Cook and Mr. Yehle. The dining table had as a centerpiece a "wedding" cake with a large pink candle surrounded by twenty-four small ones. The bride and groom of twenty-five years were presented with a complete set of silverware, each gift being secured to the end of pink ribbons and placed on the table around the cake. The table decorations were in pink and silver and the same color scheme was carried out in the refreshments. The guests included the employees of the Yehle Dry Goods store and these additional friends: Mr. and Mrs. Edgar Rhoades, Mr. and Mrs. Bert Hiatt, Misses Mary Gram, Anna Blatter, Hilda Lahr, Helen Riffe and Emma Lehmer.

November Meeting.

The November meeting of the Woman's Missionary Society of the First Christian church was held yesterday afternoon at the church. Mrs. Eugene Rathbun's division was in charge of the meeting and Mrs. W. C. Frank was the leader of the program on "India." A short business session was conducted by the president, Mrs. J. B. Robinson. Mrs. Frank gave an interesting account of the early missionaries to India and other readings and talks on the social conditions, hospitals and needs of India were given by members of the society. A letter was read from Miss Delia Legge, the living link missionary, who is now on furlough in the States. Mrs. F. P. Robinson sang two solos. Twenty-five members and three visitors attended the meeting. A social hour followed the program and refreshments were served by Mrs. Eugene Rathbun and members of her division.

She carried a shower bouquet of bride roses and lilies of the valley. Miss Goldya Pope, as bridesmaid, wore a blue suit with hat to match and her bouquet was of pink roses and lilies of the valley. Frank Schumacher acted as best man for Mr. Basford. Mr. Basford and his bride left this morning for Kansas City where they will spend a few days and upon their return will be at home for the winter with the bridegroom's mother, Mrs. Anna Basford, 222 South Hester street. Miss L. Faye Myers of St. Joseph, sister of the bride, was an out-of-town guest at the wedding.

Fifty Years Ago

(From the Nodaway Democrat files Nov. 7, 1872)

In a careful canvass of the county vote, we find that the failure of only a few Democrats out of the hundred was sufficient to defeat us, and there was all of that failure in our party. We stick to it that there are now more Democrats than Radicals in old Nodaway.

The following candidates were elected:

State Senator—M. G. Roseberry.
State Representative—M. B. W. Harman.
Circuit Clerk—Henry Graves.
County Clerk—Joseph Jackson.
Sheriff—I. N. Wray.
Treasurer—H. H. Geiger.
Probate Judge—I. K. Alderman.
Assessor—W. B. Daugherty.
Surveyor—Joseph Miller.
County Attorney—B. K. Davis.
Public Administrator—I. V. McMillan.
School Superintendent—S. C. McClusky.
Superintendent of Reg.—Joseph Jackson.
Road Commissioner—John S. Wood.

In most of the townships in the county we have elected Democratic Registrars, so we may count on a fair registration in the future, if nothing else.

The "bloody chasm" was bridged most effectively on Wednesday night when the Democrats loaned the Radicals our Greely cannon and furnished them the powder to jolify their victory. If that don't bury the hatchet we don't know what would be required.

There are now 350 students in attendance at the State University at Columbia—a much larger attendance than ever known in the history of the institution.

On last Saturday night, Aug. Glahn and Jahn O'Brien had a bar-room fight at Hecklaur's saloon, Boonville, during which the former struck the latter with a large stone, from the effects of which he died the next morning.

Nodaway County Election Result—In this county the Democrats get representative, C. J. Colden; two county judges, William T. Jackson and William T. Whiteford; probate judge, John W. Tompson; circuit clerk, William Kelley; prosecuting attorney, Wesley A. Blagg; and treasurer, Ben F. Litts. The Republicans got recorder, Thomas H. Merrigan; sheriff, James M. Enis; county clerk, Miles A. Nicholas; one county judge, Charles F. Gray; and coroner, Frank A. Lee.

August Stapler and Magdalene Kroetch were married October 29 at the Abbey in Conception. They will make their home in Maryville.

L. C. Evans and family leave this week for Riverton, Neb., where they intend making their home. Mr. Evans has lived in this county thirty-four years. S. R. Polly of Riverton has bought the Brier Crest farm of Mr. Evans and will move to it in a short time.

There will be services tonight at 7:30 at the Church of God by Evangelist R. E. Hostetter of Stanberry.

CLUB WOMAN ATTACKS PETTING EPIDEMIC, AND THE MOVIES

Flint, Mich., Nov. 4—"Mere man's extravagance at Washington and the modern "petting" epidemic and the present state of the motion picture industry were some of the things flayed by speakers at the annual convention of the Michigan's Federated Woman's clubs.

"Women are more adventurous than men," Miss Ida Clyde Clarke, assistant editor of a woman's periodical, declared. "Eve sold Adam something he didn't know he wanted because she was adventurous. Uncle Sam's bachelor appartments in Washington certainly need a woman, too. Man has fumbled peace problems for 400 years, and we are as bad off now as ever. It's now up to the women."

Dr. Mary A. Williams, of Bay City, created a sensation by suggesting organization of an anti-kissing society.

"Physicians have held our kisses unhealthy," she told the delegates. "There opinion forecasts the day when we shall rub noses like the savage because kisses spread disease."

Dr. Williams advocated that the younger generations be educated away from kissing.

It was Mrs. Clarke who attacked the movies.

"They are paying women stars $1,000 per week," she said" to dress up and imitate human beings. Why don't they go out into the country and there get human beings themselves?

"Women are doing hundreds of interesting things. Their achievements are far more interesting than most movies, and yet are not broadcasted.

"There are 100 women in the national parliaments and fifteen women mayors in the United States. Women of experience should make the sacrifice of entering public life if we are to accomplish anything. They would stop some of the extravagance at Washington."

Mrs. John Tracy and Mrs. Salters of Bedford, Ia., were guests Friday evening at the home of Mr. and Mrs. L. B. Tracy on South Fillmore street.

LIFE-SAVING CAMPAIGN IN SOUTHWEST DIVISION

American Red Cross Organized and Trained Many Corps in This Section Last Summer.

More than 34 chapters have been visited during the months of May, June and July by Captain Norbert E. Raacke, first aid and life saving representative of the Southwestern Division. While visiting these various chapters, Capt. Raacke gave first aid demonstrations before Rotary, Lions and Kiwanis Clubs, as well as life saving demonstrations and instructions at Y. M. C. A., Y. W. C. A. and many outdoor pools and lakes. At the majority of the pools and lakes visited, the Captain has noted particularly that practically little or no life saving precautions are taken. A large lake at Nevada, Mo., is owned by an old Indian, who believes that if a person were drowning someone near at hand would come to the rescue.

Many letters of commendation have been received from chapters visited by Capt. Raacke. Salina, Kan., was particularly well pleased with his demonstrations at the Country Club outdoor pool. The following is an extract from a letter recently sent in by the life saving examiner of that town:

"Capt. Raacke's clever work at the large outdoor pool of the Country Club was watched in breathless silence, only to be broken by wild cheering at his many extraordinary feats of swimming and life saving. Capt. Raacke, to us, is a marvel of efficiency and his crawl stroke is still the talk of the town. He not only has been a great help in the Life Saving Department, but has given even greater interest to the Red Cross in its other lines of work."

There are several well organized life saving corps in the Southwestern Division. Kansas City, Mo., has an excellent women's corps. At the annual banquet, held in May, life saving badges were awarded to more than forty women, service medals to two and the life saving bar to one.

On July 30th the river patrol of the St. Louis Chapter gave an exhibition and races at Lincoln Beach, on the Meramec River. This exhibition was witnessed by probably the largest crowd ever gathered at Lincoln Beach. More than 500 canoes fringed the sand when the first event, the canoe singles race, was announced. Capt. Raacke had charge of the life saving demonstration, showing the various methods of breaking death holds encountered in rescuing a drowning person.

Eight life guards, after his demonstration on the barge, struggled viciously with each other in a practical illustration of life saving tactics.

The Galveston, (Texas) Life Saving Corps have frequently exhibited their skill in first aid and life saving. Owing to the prompt and efficient first aid administered by three members of the Galveston Life Saving Corps on June 4th, the life of John D. Wheeler, 26 years old, of Houston, Tex., was saved. Mr. Wheeler was overcome while bathing in shallow water and was found floating in an unconscious condition. The three members of the life saving corps succeeded in reviving Mr. Wheeler through the application of the Schaeffer method of resuscitation. He was taken to the hospital in a very weakened condition. As Mr. Wheeler was found in comparatively shallow water, it is believed his mishap was due to a fainting spell.

RED CROSS ROLL CALL AND CHRISTMAS SEAL SALE ARE DISTINCT

At a joint meeting of the National Committee of the American Red Cross and the National Tuberculosis Association, held recently, an agreement with regard to the campaigns conducted annually by each organization, which follows each other only a day apart this year, was reached. The American Red Cross will conduct its Roll Call from November 11th to November 30th. The National Tuberculosis Association will conduct its nation-wide sale of Christmas Seals from December 1st to January 1st.

A statement issued jointly by the two organizations says that undoubtedly the effectiveness of the mutual understanding depends in large measure upon the extent to which the local workers of both organizations adhere to the agreement. Overlapping of effort will be injurious to both causes, the two national organizations believe, and it is of great importance that this idea be thoroughly understood by the local workers in both, according to John Barton Payne, chairman of the American Red Cross, and Dr. Alexander Miller, president of the National Tuberculosis Association.

The official statement of the two organizations follows:

1. There is no official connection between the campaign of the National Tuberculosis Association and that of the American Red Cross.

2. There is to be no use of the Red Cross emblem by the National Tuberculosis Association.

3. The title of the American Red Cross is not to be used in the sale of Tuberculosis Seals.

4. The dates of the American Red Cross Roll Call are to be November 11th to November 30th, inclusive; and the National Tuberculosis Association's sale of seals begins December 1st and continues until January 1st.

STUDENTS OF CONCEPTION H. S. GIVE "A FUN FEST"

Entertainment Was Enjoyed by a Crowded House—$83 Cleared to Go to School Fund

The students of Conception Junction gave a very clever program at the High School last night. The name of the stunt was called, "The Fun Fest," and the school building was crowded to capacity to take in the affair.

The first six grades of the school taught by Miss Mabel Merrigan and Miss Martha Alden, gave a Tom Thumb circus and a playlet. The grammar room under Miss Garland Grooms presented a musical comedy and a one act play entitled, "The Town of Mauro."

The high school students put on a colored minstrel show which was very highly complimented by those present. This stunt was under the direction of Miss Leona Badger and Claude Thompson.

The students also sold popcorn, candy, punch and cones, and the women of the Parent-Teachers Association sold sandwiches, coffee and doughnuts. The proceeds for all of the affair which amounted to $83, clear will go to the school fund to be used in various school activities.

Part of this money will be used to get some of the moving pictures of the school, a basket ball game in the county school film.

J. T. ADAMS DENIES THAT HARDING REDUCED TAXES

He Also Points Out That New Tariff Adds 3 Billions to Cost of Living.

By Grattan Kerans.
(Special Correspondence).

Washington, D. C., Nov. 3.—In one of the latest claims made by Chairman John T. Adams of the Republican National Committee it is asserted that the Harding administration has reduced Federal expenditures and the public debts by an aggregate of $2,900,000,000.

Just why Mr. Adams stopped claiming when he reached this figure is not made clear. There was no reason, so far as his disregard of the facts was concerned, why he shouldn't have claimed reductions of $290,000,000,000. The latter total would have taken a few more ciphers, that's all—and they mean nothing to a good claimer like Mr. Adams.

Being engrossed with his own claims, Mr. Adams overlooked mentioning that the Wilson administration decreased the national debt by $2,500,000,000 between November 11, 1918, and March 4, 1921. This is more than twice the amount of the reduction Mr. Adams credits the Harding administration with having made in eighteen months.

Assuming Mr. Adams' statement to be correct—just to please him and furnish the basis of argument—the Harding administration would still have the balance on the wrong side of the ledger. If its savings and reductions represent $2,900,000,000—but they don't—its increases of taxation represent a considerably larger sum. Why?

The Fordney-McCumber profiteers' tariff law has added not less than $3,000,000,000 a year to the cost of living. Even its Republican advocates and defenders concede this much. The actual amount of the increase is $4,000,000,000 annually. This gigantic addition to the expenses of the people is chargeable wholly and solely to the Republican Congress and the Republican administration, which used their power to legislate outrageous profits into the pockets of special interests in return for the financial and political support of the latter.

This means an increase in taxation even though it is the friends and backers of the Republican machine and not the Federal Treasury that gets the money. But perhaps Mr. Adams wants the public to believe that a taxpayer has not lost anything when he pays $160 a year to private interests instead of to the Government.

ONE KILLED WHEN TRAIN CRASHES SLEEPER OF OTHER.

Dallas, Tex., Nov. 4—B. W. Willet of New York was instantly killed when the Houston train No. 37 ran into open switch at Bremond, near here early today and telescoped the pullman of train No. 65, in which Willet was speeping.

Other passengers were slightly injured. The crew of train No. 37 jumped and escaped injury.

Waco, Texas, Nov. 4.—One man was killed and another fatally injured early this morning when a Southern Pacific train crashed into the sleeper of a train en route to Waco. The accident occurred at Bramond, forty-three miles south of here.

The dead man is said to be a Mr. Willet of New York on his way to Waco. The name of the engineer could not be learned.

According to the meager details of the accident it was said that the Waco train was on the siding and the other train jumped the switch and run in on the siding, instead of on the main line.

C. G. W. Retrenching.

From Conception Courier.

The Chicago Great Western has reduced the mechanical force at this point. Eleven men have been layed off, including a boilermaker, machinist, machinist helpers, boilermaker helpers and some laborers.

Since the strike was settled the men who returned to work have no seniority and anyone, regardless of proficiency, may come in the reduction which is a point the Shopcrafts tried to eliminate and keep the ruling power out of the company's hands.

According to statistics, business men of this country doing a credit business lose annually six hundred and seventeen million dollars. The credit system of doing business carried to its usual extent has resulted in more financial crashes than any other one cause. It is bad for the buyer and bad for the business man. As a rule, the man who makes a general practice of buying on credit never accumulates any reserve for the proverbial rainy day. The man who does not spend his money until after he gets it, puts on the brakes as he gets near the end of his monthly income but the man who buys on credit generally loses sight of the amount of his purchases and buys more than prudence justifies. The extension of credit to those in temporary difficulty or who have had bad luck is a wholesome and helpful courtesy but the encouragement of unbridled credit buying and a general saturnalia of spending is bad for any community.

LADIES ESPECIALLY INVITED

Sir Walter and the Spud

IN Ireland, they still point to the place where Sir Walter Raleigh planted the potatoes he brought with him from America. The venturous knight was much impressed with the edible qualities of potatoes and touted them highly to his friends. But in spite of his efforts to popularize the spud, it was half a century or more before it became an article of general consumption abroad.

Today, a new food product becomes nationally known almost overnight. Modern methods of distribution quickly place it in thousands of stores. ADVERTISING tells the public about it in the newspapers. People try it, like it, and shortly it is in general use throughout the country.

By the same means American manufacturers—THROUGH ADVERTISING—are putting within your reach many of the boons of modern life. Without advertising, we would lack many of the comforts and conveniences that go to make life what it is in this year of grace.

Advertising keeps your information up-to-snuff on every article of human need, whether it be food, clothing, articles of household utility, necessities or luxuries.

THE COUNTY UNIT BILL

(By B. Eickholt).

The champions of this bill are compelling me to admit that many of the rural schools are by no means what they should be, that the buildings are very poor, and that many of the teachers that teach in the rural schools are not as good as they should be. Well, I could not make the teachers any better, if I tried ever so hard, that is the business of someone else. And also the fact that many of these schools are taught by teachers, teaching their first term. Now then, how about some of the teachers at the State Teachers College; what of them, how would they have gotten a start in life, if someone had not let them teach their first term. You see, friends, I am going to admit a good deal in this article. I am going to admit that the buildings are not very good in many cases, the teachers are not very good in many cases, and that many of the teachers are too young, and have not yet taught their first term. Yes, we need cooperation in school matters, we the people, could provide good school houses, with the windows not on both sides of the house, and the State Teachers College should provide good teachers, and not too young.

Is this bill going to remedy these defects? Not to any great extent, as Mr. Cooper says that we would need only a few new school houses, and as far as the teachers are concerned let us look this point over carefully.

The new proposition says that this one board of directors shall classify the teachers as to their certificate and their years of experience, and shall also fix their wages, but mind, not those teachers that teach in one of those first class high schools as these schools do not come under this bill.

What is the result? It is this. Those teachers that teach in the high schools will be hired, because of their individual ,endeavors and interest.

Let me give you an example which will illustrate what I mean.

Suppose that you wished to buy a pair of shoes. Where would you buy those shoes? Some people would send to a mail order house and take chances, of them being what they want. Others would go to a shoe store and get personal service and get a personal fit. The high schools would get personal service and fitness, and the rural districts will have to hire teachers from the list sent them by this one board of directors.

What is the result? It is this, the best teachers, those that want to go to the top of the ladder, will not stay in a State that does thus. They will go somewhere where their individual fitness, their interest and their work in the schoolroom count. Now the farmers do not want this class of teachers to as much as think of leaving.

What is the idea of having one kind of teachers for the towns and another kind for the country? Yet those posters that the better schools committee has tacked up, those posters and bills they beg to give the country child the same chance as is given the town children. Yes, voters, try and think of those two children on that picture that has been tacked up in the towns and vote "No" on proposition No. 12 on your ballot.

If this law goes into effect I greatly fear that it will muss up our rural school work very badly. This bill is by no means as clear in its provisions and in its statements as it should be.

Progress and the County Unit

It is an accepted truth that every thing which men do, progresses, and changes form and policies occasionally, in order to keep peace with the times.

You cannot name a business, an industry, or in fact anything with which modern man comes in contact as a social being, but what has changed its form or its methods many times in the last twenty-five years. The auto and airplane have driven out the ox cart and buggy. The modern mill has replaced the mortar, made in a stump. The great factory has taken from the home life every form of weaving and clothes-making, practically. And so in an endless list we could record man's progress in everything—even his school in which he leaves the lives of his dearest possessions—have changed forms and methods and must ever do so occasionally to properly serve a changing world.

But most changes have come by less opposition than has similar improvements in our schools. On every hand we see the great inconsistency men adopt in their ideas toward school methods and teachers generally.

Verily history repeats itself. If our nation would continue its protection of men in their properties, we must not neglect the training of those young ones who are to be the flesh and blood of a nation that is to be. The great America of twenty years hence, from industrial king to president; from cottage to mansion; is now sitting in the school rooms of your America. Can you assure your children as good an America as your parents handed you? Your failure to give them the sort of schools the modern world of activity expects men and women to qualify in will not make it so. Did the piling up of material wealth, alone, ever make a nation great? Are not morality and intellectuality more essential?

Then why a County Unit? Because the history of every organization whether industrial or educational shows that only by employing larger and larger units of administration can the maximum of efficiency and economy be secured.

Could a thousand small independent Ford factories have accomplished what Ford has accomplished by his gigantic concentration of resources?

Could any of our industries, now richer and greater than dozens of ancient empires have reached such heights of commercial supremacy if they had not concentrated their resources—if they had been content to have followed the old system of small units? The whole history of modern commercial progress and industrial sources is one of continual concentration. Verily, in union there is strength.

So with modern ideas of school administration—a larger concentration of school revenues is needed, and in this measure an appeal is made to the voter to make it possible for Missouri school authorities to profit by the great benefit of concentration, and administration by larger units, as has been proved by men elsewhere in industry. By the County Unit, instead of the small district unit, every economy and efficiency known by modern business can be applied to the administration of school funds. So if you feel taxes are grievous, then vote for this new economy which every successful business man follows in his personal affairs.

Your schools are the chief business of the Republic. Why not insist they be operated upon the best business-like basis. Taxes have been unnecessarily high in the past, and are now, largely because of the improvident leaks and wastes of the small district plan.

If modern progress in every other sphere of activity has proved the economies and efficiencies of administration by larger units, then let us register our support of the County Unit on next election day, and have our schools benefit by a similar tried and proved plan. The business of maintaining a school of securing proper revenues and spending it wisely is no different than in any activity or enterprise strictly of a business nature. So as a pure business matter—a matter of dollars and cents—wholly aside from sentimental, patriotic or pedagogical reasons, vote for Amendment No. 12—the County Unit. SPRINGFIELD S. T. C. HOLDS LEAD IN M. I. A. A. GAMES

Won From Cameron 7 to 6 Yesterday —Jewell Defeats Warrensburg by 28 to 0 Score.

Springfield is still in the lead in the Missouri Intercollegiate Athletic Association football games. By virtue of her victory over Missouri Wesleyan yesterday by a 7 to 6 score she holds the top of the string. The result of the game yesterday at Cameron comes as a surprise to football fans in Maryville. It was believed by all who have not made a close study of both teams that Springfield would win a one-sided game. However, Wesleyan held a six point lead until the last of the game, when a forward pass over the goal line won for the Teachers.

Warrensburg went down to a 28 to 0 defeat at the hands of William Jewell yesterday and Central College scored a 35 to 6 victory over Central Wesleyan.

The Warrensburg team will invade the camp of the State Teachers College Bearcats next Saturday for an Armistice Day game. This game will mark the start of the Bearcats' last three games of the season, all with conference teams. Tarkio comes to Maryville on the 18th and on Turkey Day Coach E. A. Maynor will take his squad to Westminster for the final game of the series.

Should the Bearcats take these three games, they will have won four conference battles and lost three. Not so bad, at that.
